ORDINANCE NO. 2010-002

AN ORDINANCE OF THE TOWN COUNCIL OF THE TOWN OF LOXAHATCHEE GROVES, FLORIDA, DECLARING A MORATORIUM AS TO THE FILING AND/OR RECEIVING OF ANY APPLICATION FOR THE ESTABLISHMENT OF A PAIN MANAGEMENT CLINIC AS DEFINED HEREIN; PROVIDING THAT THE MORATORIUM SHALL BE IN EFFECT FOR A PERIOD WHICH SHALL TERMINATE ON THE EFFECTIVE DATE OF TOWN'S OWN REGULATIONS FOR PAIN MANAGEMENT CLINICS; PROVIDING FOR LEGISLATIVE FINDINGS; PROVIDING FOR INTENT AND PURPOSE; PROVIDING FOR REPEAL; PROVIDING FOR CONFLICTS; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, in the Spring of 2009, the State Attorney's Office for the 17th Judicial Circuit in Broward County, Florida, issued an interim report on "The Proliferation of Pain Clinics in South Florida," in which it set forth the following facts: (i) from August 2008 to November 2009, one (1) new pain clinic is open in Broward and Palm Beach counties every three (3) days, (ii) doctors in Palm Beach County dispensed the second highest volume of Oxycodone units in the country, (iii) in 2008, prescription drugs were attributed to an average of 135 deaths per day in Florida, and (iv) pain clinics are migrating north from Broward County to major metropolitan areas; and

WHEREAS, the Town Council has recently been made aware that a pattern of illegal drug use and distribution has been associated with some pain management clinics in South Florida, which dispense narcotic drugs on-site; and

WHEREAS, news media such as the Miami Herald, the Sun Sentinel, and the Palm Beach Post have published numerous newspaper articles in recent months describing the "pipeline" trafficking drugs from some South Florida pain management clinics to users from other states such as Kentucky, West Virginia and Ohio, including a report in the Palm Beach Post published on December 13, 2009; and

TOWN OF LOXAHATCHEE GROVES

ORDINANCE NO. 2010-002

WHEREAS, the threat of illegal narcotic activity and increased crime associated with such clinics is significant and should undermine the economic health of the Town; and

WHEREAS, the Town Administration is directed to analyze the potential effects of pain management clinics in the Town to analyze the criteria for regulations in connection with the issuance of any development permits, business licenses, or approvals for the location of pain management clinics within the Town, and to make recommendations which will better promote the health, safety, morals, and general welfare of the Town; and

WHEREAS, Palm Beach County, and several municipalities within Palm Beach County, have also issued a moratorium for pain management clinics and as a result, in the absence of similar action by the Town, the Town could become a prime location for pain management clinics in Palm Beach County; and

WHEREAS, while Town Administration is undergoing its analysis, and in order to prevent the occurrence during this period of uses which are incompatible with the intent of the Town's zoning and land development regulations, it is necessary to establish a moratorium and zoning in progress which prevents the granting of development permits or approvals for pain management clinics, as defined herein, in the Town, during this period; and

WHEREAS, it is not the intent of this moratorium to interfere with legitimate medical clinics nor the legal use of controlled substances; and

WHEREAS, the Town Council finds and declares a need to temporarily suspend the issuance of permits or approvals for pain management clinics, as defined herein, until such time appropriate regulations can be adopted, to provide for the Town to review zoning and land development regulations in connection with pain management clinics.

The question as to whether a nonconforming use **legal and conforming status of a use, structure or plot** exists shall be a question of fact, and the determination of Town staff may be appealed pursuant to the procedures of Article 145, "Administrative Appeals."

Section 75-020. - Nonconforming uses.

- (A) *Extension of nonconforming use of structure.* The nonconforming use of a structure may be extended throughout any part of the structure clearly designed for such use but not so used at the effective date of the ordinance that created the nonconforming use. Any nonconforming use that occupied a portion of a structure not originally designed or intended for such use shall not be extended to any other part of the structure or any other structure on the plot.
- (B) *Extension of nonconforming use of land.* The nonconforming use of land shall not be extended or moved to any area on the plot not so used at the effective date of the ordinance that created the nonconforming use.
- (C) *Repair, alteration, enlargement of structures used for nonconforming uses.* No structure utilized for a nonconforming use shall be enlarged, extended or structurally altered, unless the use is changed to one which complies with the provisions of this Code, provided that repairs and maintenance may be carried out in any one year period in an amount not to exceed 25 percent of the assessed value of the structure for that year, and further provided that such work does not increase the cubical content of the structure nor the floor area devoted to the nonconforming use, nor increase the number of dwelling units. Improvements specifically required by this Code, for example, bringing the site into compliance with Article 85, "Landscaping," shall be exempt from this subsection. Nothing herein shall prevent compliance with applicable laws or statutes relative to the safety and sanitation of a structure occupied by a nonconforming use.
- (D) *Discontinuation of nonconforming use of land.* If for any reason a nonconforming use of land ceases or is discontinued for a period of more than six months, the land shall not thereafter be used for a nonconforming use. Maintenance of a local business tax receipt for the nonconforming use shall not in and of itself be considered proof that the use has been in continuous operation.
- (E) *Discontinuation of nonconforming use of a structure.* If for any reason the nonconforming use of a structure ceases or is discontinued for a period of six months or more, the structure shall not thereafter be used for a nonconforming use. - (C) *Discontinuance of use.* If the use of a nonconforming structure for a conforming nonresidential use ceases for any reason for a period of six months or more, the structure shall not thereafter be occupied, unless the structure and accessory plot improvements comply with all Code requirements. Section 75-030. - Nonconforming plots of record determined to be legal and conforming.

- (A) A nonconforming plot of record determined to be legal and conforming pursuant to Section 75-015 may be used for any use permitted by the zoning district within which the plot is located, provided the plot complies with all development standards except for required plot size and dimensions, and provided that specific Specific uses required to have different plot area or dimensional requirements than generally required for other uses within the same zoning district, shall not be permitted on a nonconforming plot of record determined to be legal and conforming pursuant to Section 75-015 that does not comply with said plot size and dimensional requirements, unless the Town grants a variance for the size, setback, or dimensional requirement pursuant to the procedures and standards of Article 150, "Variances."
- (B) In order to ensure the reasonable use of property, the revised development standards shall apply to nonconforming lots of record determined to be legal and conforming, as follows:

Agriculture, bona fide. Bona fide agriculture are those uses conducted on lands which are engaged in farming as defined in F.S. § 823.14(3).

Clear trunk. The distance between the top of the root ball along the vertical trunk or trunks of a tree to the point at which lateral branching or fronds begin.

Champion tree. A champion tree is the largest tree of its species within the state as recognized by the Florida Department of Agriculture's Division of Forestry based on trunk circumference, vertical tree height, and average crown spread.

Crown spread. The average distance of the diameter of the extent of the upper portion of a tree, consisting of limbs, branches, and leaves.

Diameter breast height (DBH). The diameter, in inches, of the trunk of a tree measured at a height of four and one-half feet above the natural grade (breast height). Trees with less than four and one-half feet of clear trunk shall be measured as the diameter of the largest vertical branch or leader at breast height.

Effectively destroy. To purposefully cause, suffer, allow, or permit any act which will cause a tree to die or go into a period of unnatural decline within a period of one year from the date of the act. Destruction by naturally occurring diseases, or acts of nature such as storm events or lightning strikes are not considered purposeful acts of destruction. Examples of such acts may include but are not limited to:

- (1) Girdling of trees by improper guying, staking, support, string trimmers, or non-removal of planting materials from root balls and uncontrollable livestock.
- (2) Introduction of any type of poison or reactive material for the purpose of causing the tree to die or become diseased.
- (3) Placement of excess materials or soils within the tree drip line causing the death or disease of the tree.
- (4) Peeling or stripping of bark to the extent that if a line is drawn at any height around the circumference of the tree, over one-third of the length of the line falls on portions of the tree where bark no longer remains.
- (5) Removal of the majority or near entirety of canopy.

Invasive non-native vegetation. For the purposes of this article, only those species included but not limited to those identified in F.S. § 369.251 shall be recognized as invasive non-native vegetation within the Town.

Mulch. Non-living organic material customarily used in landscape design to retard erosion, retain moisture and control weeds.

Tree. Any living, self-supporting woody perennial plant which at maturity attains a trunk diameter at least one and one-half inches or more when measured at a point four and one-half feet above ground level and which normally attains an overall height of at least 15 feet, usually with one main stem or trunk and many branches.

Tree, specimen. A tree recognized as very old, exceptionally beautiful, tall or large.

Wetland, jurisdictional. A jurisdictional wetland, is defined in subsection F.S. § 373.019(25), as may be amended .

Section 87-015. Permitted, exempt and prohibited activities.

(A) *General permit.* A general permit is required for upland land clearing that does not qualify for an exemption under this article. Prior to applying for a permit from the Town, the applicant must obtain all required permits and authorizations from external agencies having jurisdiction for the proposed work. The Town will maintain a general list of permits that may be required

- (1) Tree mitigation, as specified in Section 87-030, shall be required for all work conducted under a general permit.
- (2) In conjunction with the construction of any structure, a general permit also requires the removal or eradication of invasive non-native vegetation for the area of the authorized site plan extending out from the structure a distance of 40 feet. The parcel owner shall thereafter maintain this area free of invasive non-native vegetation.

(B) *Vegetative permit.* A residential landowner may apply for a vegetative permit for clearing and control of invasive exotic plant species and the selective relocation of native plant material within the property. A tree survey is not required

(C) *Exempt activities.* The following activities do not require a permit under this article.

- (1) Vegetation alteration associated with Botanical Gardens, Botanical Research Centers, Licensed Commercial Nurseries, or Bona fide Agricultural Operations that is a part of the on-going activities of the existing operation including the maintenance and upkeep of agricultural and pasture lands. Initial clearing of a parcel not previously used for these purposes is not an exempt activity.
- (2) The minimal removal of native trees or understory necessary to install a fence, provided that the path cleared for the fence does not exceed five feet in width. Clearing

§ 87-015 LOXAHATCHEE GROVES UNIFIED LAND DEVELOPMENT CODE

required for building accessory structures on residential property is exempted from requiring a permit. Traversing a jurisdictional wetland requires approval from the applicable agency.

- (3) The removal of dead and hazard trees that constitutes a peril to life or property.
- (4) Wetland mitigation or enhancement activities conducted pursuant to a permit from the South Florida Water Management District or the Florida Department of Environmental Protection under Chapter 62-312, F.A.C. as amended.
- (5) Alteration of vegetation pursuant to an adopted management plan for government maintained parks, recreation areas, wildlife management areas, conservation areas and preserves, excluding new construction or parcel improvement.
- (6) Pruning of all trees in accordance with the American National Standards Institute (ANSI) A300, to allow for healthy growth, to promote safety, and to remove dead or hazard trees.
- (7) Routine maintenance mowing operations or "bush hog" type mowing operations in areas that are regularly maintained.
- (8) Pruning and removal of vegetation within a utility easement, for maintenance and where the vegetation is interfering with services provided by a utility. Including public utility, water control, water management, and road right-of-way activities within utility and drainage easements.
- (9) The necessary minimal removal of vegetation by, or at the direction of, a State of Florida licensed professional surveyor and mapper, professional geologist, or professional engineer to conduct a survey or other required test.
- (10) Management activities in areas designated by deed restriction, plat, restrictive covenant, or conservation easement dedicated to a public entity or approved private conservation group for preservation provided the activity furthers the natural values and functions of the ecological communities present, such as clearing firebreaks for prescribed burns or construction of fences; and the preserve area has a preserve management plan approved by the Town, or another governmental entity.
- (11) Selective tree removal for forest management activities as defined in the current Forest Management Plan as approved by the State of Florida Division of Forestry.
- (12) Removal of vegetation certified by the Florida Department of Forestry or PBC Fire Rescue such that a 30-foot buffer should be cleared around designated structures through the Fire Wise program.
- (13) Removal or trimming of non-native and invasive vegetation.
- (14) Routine landscape maintenance activities such as edging, hedge trimming, and on-going gardening operations.

TREE PRESERVATION, SOIL STABILIZATION, INVASIVE REMOVAL § 87-025

(D) *Prohibited activities.* The purposeful planting or installation and cultivation of vegetation identified as invasive non-native vegetation is prohibited.
(Ord. No. 2010-008, § 2(Exh. A, § 3), 10-5-2010)

Section 87-020. Application requirements and fees.

(A) *Application requirements.* The following application requirements apply.

- (1) Permit applications shall be made on forms provided by the Town.
- (2) An application shall not be deemed complete until the application fee and all information necessary to understand the extent, nature and potential impacts of a proposed project are received by the Town. Application information may include, but is not limited to:
 - a. A completed application form with the signature of the parcel owner, or authorized agent of the parcel owner with agent authorization letter;
 - b. A description of the work to be performed;
 - c. Parcel information including legal description and a location map;
 - d. Identification of the type, size and location of native trees that are three inches DBH and greater to be removed with representative color photographs; and
 - e. A tree replacement or tree relocation table, if applicable.

(B) *Fees.* Permit application filing fees shall be required, as established by a Resolution of the Town Council. Fees shall be non-refundable and non-transferable. An additional administrative fee may be required where projects require specific detailed site plan assistance by the Town, or where site plans significantly change after initial review pursuant to the Town's cost recovery policies. Application fees paid by check shall be payable to the Town of Loxahatchee Groves.

(C) *Inspections.* An application for a vegetation removal permit constitutes consent by the property owner and/or applicant for the Town to conduct site inspections in furtherance of this article on the subject property, pursuant to permit requirements.
(Ord. No. 2010-008, § 2(Exh. A, § 4), 10-5-2010)

Section 87-025. Standards and conditions.

(A) *Standards of permit issuance.*

- (1) A permit will be in effect for up one year after the issuance date. The Town may extend the authorization for one year upon written request submitted at least 30 days prior to expiration of the permit.
- (2) Trees authorized for removal during the effective dates of a permit may not be removed after the expiration of the permit without issuance of a new permit based upon a new application.

§ 87-025 LOXAHATCHEE GROVES UNIFIED LAND DEVELOPMENT CODE

- (3) Any application received that is substantially the same as a previous application that has been denied by the Town subsequent to the effective date of this article shall be denied with a written response provided to the applicant stating the reason for denial.
- (4) Any parcel where there is an unresolved violation of any chapter administered by the Town, shall not be eligible for a permit under this article until such violation has been resolved.
- (5) Any application containing false information, or any permit issued based upon false information, may be denied or revoked and may subject the applicant to enforcement proceedings pursuant to the provisions of this Code.

(B) *Permit conditions.* The Town may include, but not be limited to the following permit conditions with the approval of a permit.

- (1) Conditions reasonably necessary to protect the environmental integrity of any on-site or adjacent wetlands, mitigation areas and preserve areas, and to prevent potential harm to native plant and animal species.
- (2) Conditions for vegetation debris removal.
- (3) The use of barriers and flagging during construction to establish appropriate setbacks to protect and preserve existing native vegetation.
- (4) Conditions reasonably necessary to stabilize exposed and disturbed land surfaces.
A performance guarantee in an amount equal 110 percent of the cost of the required tree mitigation for tree removal on vacant lands.

(C) *Land clearing standards.* The landowner shall take all reasonable measures during the land clearing process to avoid damage to trees and other native vegetation designated to remain after construction, and to protect exposed and disturbed soils from stormwater and wind forces.

- (1) Best management practices shall be implemented to protect exposed and disturbed soils from stormwater or wind forces during construction.
- (2) The design plan shall limit the removal of existing native vegetation only to that area needed to implement the project.
- (3) The design plan shall strive to maximize removals from any areas dominated by invasive non-native vegetation.
- (4) Native trees in the footprint of the proposed development that can reasonably be transplanted with an anticipated high degree of success should be incorporated into other areas on the parcel to the maximum extent practicable. If movement is not practical, trees should be replaced and by a greater number and on the same property. (See Section 87-0306(B), tree replacement, for trees that die within one year of relocation.)
- (5) All exposed and disturbed surfaces shall be mulched, seeded, sodded, vegetated or otherwise stabilized by the time of Certificate of Occupancy or final inspection. Failure

TREE PRESERVATION, SOIL STABILIZATION, INVASIVE REMOVAL § 87-025

to stabilize disturbed surfaces, as well as the removal of vegetation resulting in on-site or off-site erosion (sedimentation or siltation or both) or the windblown loss of soil shall be deemed a violation of this article.

(D) *Vacant land standards.* The speculative removal of native vegetation in advance of parcel improvement on vacant lands is not consistent with the goals of this article. However, certain conditions can provide assurances that parcel improvement will proceed in good faith. A general permit will not be issued by the Town in advance of issuance of a land development permit or building permit unless the following is provided:

- (1) Evidence that the anticipated work for which the land clearing permit is sought shall commence within one year of issuance of the general permit;
- (2) A performance guarantee in an amount equal to 110 percent of the cost to restore native vegetation on the parcel in the event that improvement of the parcel is abandoned or the permits expired. Deposits should be refunded upon completion of the structure to allow purchaser to buy the trees. CO will be withheld until trees are purchased.
 - a. The performance guarantee shall be executed by a person with a bona fide legal interest in the parcel.
 - b. Two estimates of the cost to restore native vegetation on the parcel may be required for purposes of establishing the applicable amount of the performance guarantee.
 - c. The form of guarantee shall be:
 1. A cash deposit or certificate of deposit assigned to the Town; or
 2. An escrow agreement for the benefit of the Town, in a form satisfactory to the Town Attorney and approved by the Town Council; or
 3. A performance bond issued by a State of Florida registered guarantee company in a form satisfactory to the Town Attorney and approved by the Town Council; or
 4. An irrevocable letter of credit in a form satisfactory to the Town Attorney and approved by the Town Council.
- (3) The performance guarantee shall be kept in full force until authorized site improvements commence on the parcel and any required tree mitigation is installed.
- (4) The vacant land standards of this section only apply to general permit activities.
- (5) Parcels of vacant land shall be allowed to remove overgrown herbaceous understory vegetation to preserve tree canopy in areas where natural fire has been suppressed and where a prescribed burn would not be feasible. No healthy trees that have six inches DBH or greater are to be removed or damaged.

§ 87-025 LOXAHATCHEE GROVES UNIFIED LAND DEVELOPMENT CODE

(E) *Off-site tree relocation.* Re-locatable native vegetation that cannot be incorporated into the parcel may be relocated off-site. An applicant requesting off-site relocation shall provide reasonable evidence that on-site planting is not feasible.

- (1) An applicant conducting tree relocation shall provide a tree relocation management plan which shall include, but not be limited to, the relocation schedule and likelihood of success for each relocated tree, installation location of each relocated tree, identification and size of each relocated tree, and the replacements required pursuant to Table A-2. Tree Replacement per this article to be implemented if the relocated material does not survive for a period of at least one year from the date of relocation.
- (2) An applicant conducting tree relocation shall provide irrigation, mulch, and other practical means to assist the survival of any relocated tree.
- (3) The Town shall retain jurisdiction to ensure compliance with any tree replacement required by this subsection.
- (4) All off-site relocation requires approval by the Town Council.
- (5) Off-site relocation shall optimally be placed in or adjacent to a public park parcel or a preserve or mitigation area.
- (6) All off-site relocation shall be located within the Town or the Town needs to be compensated for tree loss. Exceptions are permitted at the discretion of the Town Council.

(F) *Debris disposal.* Every effort shall be made by the landowner to minimize the amount of land clearing debris deposited in a landfill. Mulching or other appropriate utilization should be pursued whenever feasible.

- (1) The Town may include permit conditions for vegetation debris disposal by open burning, but the conditions shall not be in conflict with required burn permits from jurisdictional agencies.
- (2) The burying of rubbish, logs, lumber, underbrush or other organic matter and materials from pruning, clearing or grubbing operations which would decompose or allow the land to thereafter settle is determined to be change or modification of the grade of the land and is not authorized under this article.
- (3) All felled materials shall be promptly and carefully removed in such a manner as to avoid potential damage to remaining trees and vegetation, the harboring of insects or promotion of disease, the harboring of rodents or undesirable wildlife, or increases in fire hazards.

(G) *Pruning standards.* Trees intended for shade purposes shall be allowed to reach mature canopy. Acts, which effectively destroy a tree exclusive of invasive trees, are a violation of this article.

TREE PRESERVATION, SOIL STABILIZATION, INVASIVE REMOVAL § 87-030

(H) *Champion tree standards.* Notwithstanding any other provisions of this article, champion or co-champion trees, as recognized by the Florida Department of Agriculture's Division of Forestry, shall not be removed except for extraordinary circumstances and hardships. Removal of any champion or co-champion or specimen tree shall require Town Council approval.

(I) *External agency standards.* The applicant is responsible for obtaining all required permits and authorizations from external agencies having jurisdiction for the proposed work; including, but not limited to:

- (1) Prior to applying for a permit from the Town, the applicant must obtain all required permits and authorizations from external agencies having jurisdiction for the proposed work.
- (2) The property owner is subject to and must ensure compliance to the water quality rules and standards as set forth in Chapter 62.302, of the Florida Administrative Code (F.A.C.). When applicable, the property owner shall obtain any required environmental resource permit from the South Florida Water Management District or the Florida Department of Environmental Protection.

(Ord. No. 2010-008, § 2(Exh. A, § 5), 10-5-2010)

Section 87-030. Tree mitigation.

(A) *Mitigation.* Mitigation, through tree replacement as specified under this section, shall be required for the removal of native trees that are three inch DBH or greater. A tree replacement table identifying and quantifying all replacement trees to be installed shall be submitted with the permit application. The tree replacement plan shall also identify the size of each replacement tree and location for installation. The tree replacement plans shall maximize tree and vegetative buffering between properties. Tree replacement can be done by the landowner.

(B) *Tree replacement.* Removed native trees shall be mitigated through replacement in accordance with Table A-2: Tree Replacement, shown below. For relocated trees which die within one year of relocation, the replacement value shall be that as shown in Table A-2. Those trees less than six inches DBH shall be replaced with the same size tree as the relocated tree.

Table A-2: Tree Replacement	
Tree Height and DBH	# of Replacement Trees Required
30 ft. up or 9" DBH	6
Less than 30 ft. or 9" DBH	4
Less than 5 ft. or 3" DBH	0

- (1) Replacement trees greater than 30 feet tall in Table A-2 shall be at least ten feet in height and two and one-half inches DBH. Replacement trees less than 30 [feet] tall shall be at least ten inches in height and one and one-half inches DBH. Palm replacement trees shall have an overall height of no less than ten feet and approved for Zone 10a.

§ 87-030 LOXAHATCHEE GROVES UNIFIED LAND DEVELOPMENT CODE

- (2) Tree mitigation may be addressed by the use of Florida Friendly Landscaping and/or the introduction of wetlands and upland pines areas and may include mid size and smaller trees.
- (3) All replacement trees shall consist of native vegetation indigenous to the area, and have an appropriately sized root ball and be free of disease, defects or damage that will prohibit the tree from attaining its natural growth habit. Pine trees that are selected as replacement trees shall be South Florida Slash Pine trees only. Five-gallon container native trees may be used for mitigation.
- (4) If the required replacement trees cannot be purchased within 60 miles of the parcel, an alternate replacement may be approved by the Town.
- (5) At least 25 percent of the trees planted as mitigation shall be the same species as the trees removed.
- (6) All replacement plants specified in the general permit are required to be accepted prior to the release of the Certificate of Occupancy, unless otherwise approved by the Town.
- (7) Monitoring time frames for all replacement plants specified in the general permit shall be established as permit conditions.
- (8) Mitigation vegetation, other than trees, may be approved by the Town providing the vegetation is native and indigenous to the area.
- (9) For parcels that have a conservation easement requirement from the SFWMD, where the dedication of upland buffers around a wetland is included as wetland mitigation, any trees installed within the dedication upland buffer may apply to the tree replacements required in Table A-2.
- (10) All replacement trees must survive at least within one year of planting and must be replaced as often as necessary for the replacement to live beyond one year.
- (11) Specimen or champion trees are not subject to cutting, relocation or mitigation without approval of the Town Council.

(C) *Mitigation waivers.* Mitigation requirements may be waived for residential single family properties for the clearing area of the house pad and attached structures, the septic system, driveway and a 50 foot buffer area around the house. This shall be determined by the Town on a case-by-case basis, after determination that the parcel owner is providing a building location that minimizes impacts to native vegetation to maximum extent practicable.

(D) *Mitigation deferrals.* The Town shall provide for a parcel to be cleared for bona fide agriculture use consistent with state requirements without concurrent mitigation. The cost to comply with the requirement to quantify the complete tree mitigation specification or a tree survey may be a deterrent to bona fide agriculture in some cases. The Town may shall require that the parcel owner record a restrictive covenant on a Town approved form limiting the parcel to bona fide agriculture use, and requiring the parcel owner to make a cash donation to the Loxahatchee Groves Tree Mitigation Trust Fund, or to mitigate in accordance with Table

TREE PRESERVATION, SOIL STABILIZATION, INVASIVE REMOVAL § 87-040

A-2 at the time of a zoning or land use change. The restrictive covenant shall include language quantifying the complete tree mitigation specifications required at the time of conversion. Any restrictions presently in place by county or state must be included.

(E) *Alternative mitigation.* Alternative mitigation proposals that meet the purpose and intent of this article may also be submitted and will be reviewed on a case-by-case basis. Alternative mitigation proposals require approval by the Town Council prior to issuance of a general permit. Any alternative mitigation which is proposed must remain within the Town.

(F) *Mitigation for violations.* When native trees that are three inches DBH or greater are removed or are damaged without a permit, or when trees that were to be preserved in place are damaged or destroyed by activities conducted with a permit, those native trees shall be replaced at double the rate shown in the Table A-2 and may be subject to additional fines at the discretion of the Town Council.

(Ord. No. 2010-008, § 2(Exh. A, § 6), 10-5-2010)

Section 87-035. Appeals.

(A) *Appeal.* An applicant for any permit may appeal a final determination made by the Town's permitting authority to the Town Council.

(B) *Submittal.* A written request for an appeal and the filing fee must be submitted within 45 calendar days of the applicant's receipt of the decision by the Town's permitting authority. The appeal must state with specificity the reasons for the appeal and shall contain such data and documentation upon which the applicant seeks to rely. Failure to file within such time frame shall constitute a waiver of a person's right of review by the Town Council.

(C) *Hearing.* The appeal shall be reviewed at a hearing by the Town Council no later than 60 calendar days following the Town's receipt of a request and the required filing fee. The hearing shall be quasi-judicial and shall be conducted pursuant to the procedures set forth within the Town's Unified Land Development Code.

(D) *Judicial relief.* An applicant may appeal a final written order of the Town Council to the Circuit Court of the Fifteenth Judicial Circuit in and for Palm Beach County, as provided by law.

(Ord. No. 2010-008, § 2(Exh. A, § 7), 10-5-2010)

Section 87-040. Violations.

(A) *Violations.* A violation shall be the failure to comply with the requirements of this article or with a condition of a permit issued by the Town pursuant to this article. Each condition or requirement violated and each occurrence of a violation shall constitute as a separate violation.

(B) *Enforcement.* The Town shall enforce the provisions of this article by any lawful means including, but not limited to, issuing a civil citation, bringing charges before the Town Special Magistrate, and seeking injunctive and equitable relief. To enforce compliance with this

§ 87-040 LOXAHATCHEE GROVES UNIFIED LAND DEVELOPMENT CODE

article, the Town may issue a cease and desist order or require that a building permit or Certificate of Occupancy be withheld. A violation of this article shall be punishable by one or more of the following:

- (1) Up to quadruple permit fees for violations involving activities conducted without a valid permit that may otherwise have been permitted;

Florida Exotic Pest Plant Council's 2011 List of Invasive Plant Species

Purpose of the List: *To focus attention on —*

- ▶ the adverse effects exotic pest plants have on Florida's biodiversity and native plant communities,
- ▶ the habitat losses in natural areas from exotic pest plant infestations,
- ▶ the impacts on endangered species via habitat loss and alteration,
- ▶ the need for pest-plant management,
- ▶ the socio-economic impacts of these plants (e.g., increased wildfires or flooding in certain areas),
- ▶ changes in the severity of different pest plant infestations over time,
- ▶ providing information to help managers set priorities for research and control programs.

CATEGORY I

Invasive exotics that are altering native plant communities by displacing native species, changing community structures or ecological functions, or hybridizing with natives. *This definition does not rely on the economic severity or geographic range of the problem, but on the documented ecological damage caused.*

FLEPPC List Definitions:

Exotic – a species introduced to Florida, purposefully or accidentally, from a natural range outside of Florida.

Native – a species whose natural range includes Florida.

Naturalized exotic – an exotic that sustains itself outside cultivation (it is still exotic; it has not "become" native).

Invasive exotic – an exotic that not only has naturalized, but is expanding on its own in Florida native plant communities.

Abbreviations:

Government List (Gov. List):
P = Prohibited aquatic plant by the Florida Department of Agriculture and Consumer Services;

N = Noxious weed listed by Florida Department of Agriculture & Consumer Services;

U = Noxious weed listed by U.S. Department of Agriculture.

Regional Distribution (Reg. Dist.):
N = north, C = central, S = south, referring to each species' current distribution in general regions of Florida (not its potential range in the state). Please refer to the map below.

Changes to the 2011 List:

New Listings to Category I:

Deparia petersenii

(Japanese false spleenwort)
Documented in numerous near exotic-free ravines in the central panhandle, it is displacing native flora and likely insect populations because it forms extremely dense colonies. Documented in seven Florida counties.

Lumnitzera racemosa

(black mangrove)
This Asian mangrove has spread abundantly following plantings at Fairchild Tropical Botanical Garden in Miami-Dade County between 1966 and 1971. The species subsequently spread into mangrove forests at Fairchild and the adjacent Matheson Hammock Park, infesting 19 acres with stem densities exceeding that of native mangrove species. Looks very similar to the protected native white mangrove (*Laguncularia racemosa*).

Phymatosorus scolopendria

(serpent fern, wart fern)
This fern, native to tropical Asia, Africa, and Polynesia, has been documented naturalizing in three south Florida counties. It is invading rockland hammocks and forested wetlands where it displaces native understory species including endangered ferns.

New Listings to Category II:

Ardisia japonica (Japanese ardisia)

Ardisia japonica is a plant species from Japan. Thirteen populations have been located in San Felasco Hammock in Alachua County, two more at the Loblolly Nature Center in Gainesville, and another one containing 3,000 to 4,000 plants in Florida Caverns State Park in the Florida panhandle. All of the infestations are in undisturbed mature upland hardwood forest with healthy, diverse ground cover that is displaced as it spreads by underground rhizomes. Fruits collected from these populations produced viable seedlings.

Bruguiera gymnorhiza

(large-leaved mangrove)

This mangrove from the Old World tropics is established at the Kampong, a botanical garden in Miami-Dade County where it was planted in 1940. The leaves and propagules of this species bear a strong resemblance to the native red mangrove (*Rhizophora mangle*). In a 2008 survey it was found naturalized in mangrove forest on the property, where 86 individuals were observed and recruitment rates were higher than for native species. There is a strong chance that it will disperse to other nearby mangrove forests.

Cocos nucifera (coconut palm)

Coconut palm, ubiquitous along Florida's coastlines, is thought to be native to the Malay Peninsula or the South Pacific. This species has been found invading beach dune and coastal grassland communities in extreme south Florida and the Florida Keys. Plants form thick clusters and shed leaves that form dense layers on the ground, displacing native species. Impacted species include the federally threatened Garber's spurge (*Chamaesyce garberi*) in the Cape Sable area of Everglades National Park and nickerbean (*Caesalpinia bonduc*), the host plant for the endangered Miami Blue butterfly at Bahia Honda State Park.

Mikania micrantha

(mile-a-minute vine)

This vine of the American tropics is listed on the Federal Noxious Weed List because of invasiveness in other tropical regions. *M. micrantha* was first observed in Florida in 2008 in Miami-Dade County. It has since been observed at over two dozen sites throughout the Redland area of Miami-Dade County. It is primarily associated with agricultural sites, particularly container nurseries and tree farms, but has been found within the interiors of two rockland hammock fragments. It is a threat to other natural areas in Miami-Dade County, and poses a very high risk of dispersing to other counties.

Syzygium jambos

(Malabar plum, rose apple)

This species was downgraded from the Category II list in 2009 because of a lack of data in EDDMapS, herbaria, and observations of committee members. However, data compiled by FNAI shows 62 records in 9 counties in mesic and wet flatwoods, basin and floodplain wetlands. It has been reinstated as a Category II.

Category Changes

Jasminum sambac and *Solanum jamaicense* removed from Category II based on lack of data in natural areas. *Urena lobata* moved from Category II to Category I.

Use of the FLEPPC List

The FLEPPC List of Invasive Plant Species is not a regulatory list. Only those plants listed as Federal Noxious Weeds, Florida Noxious Weeds or in local ordinances are regulated by law. FLEPPC encourages use of the Invasive Species List for prioritizing and implementing management efforts in natural areas, for educating lay audiences about environmental issues, and for supporting voluntary invasive plant removal programs. For more information on using the FLEPPC List of Invasive Plant Species, see *Wildland Weeds Summer 2002* issue (Vol. 5, No. 3), pp. 16-17, or <http://www.fleppc.org/list/list.htm>

NOTE: Not all exotic plants brought into Florida become pest plants in natural areas. The FLEPPC List of Invasive Plant Species represents only about 11% of more than 1,400 exotic species that have been introduced into Florida and have subsequently established outside of cultivation. Most escaped exotics usually present only minor problems in highly disturbed areas (such as roadsides). And there are other exotics cultivated in Florida that are "well-behaved" — that is, they don't escape cultivation at all.

FLEPPC Database – The Florida Exotic Pest Plant Database contains over 211,000 sight records of infestations of FLEPPC Category I and Category II species in Florida public lands and waters. 143 species are recorded. Nearly all of the records are from local, state, and federal parks and preserves; a few records document infestations in regularly disturbed public lands such as highways or utility rights-of-way. Natural area managers and other veteran observers of Florida's natural landscapes submit these records, with many supported further by voucher specimens housed in local or regional herbaria for future reference and verification. New and updated observations can be submitted online at www.eddmaps.org/florida/. This database, along with other plant data resources such as the University of South Florida Atlas of Florida Vascular Plants at www.plantatlas.usf.edu, the Florida Natural Areas Inventory database at www.fnai.org, and the Institute for Regional Conservation Floristic Inventory of South Florida database at www.regionalconservation.org, provides important basic supporting information for the FLEPPC List of Invasive Plant Species.

Images of FLEPPC-listed species may be found at one or more of the following websites: University of South Florida Atlas of Florida Vascular Plants, www.plantatlas.usf.edu; the University of Florida Herbarium collection catalog, <http://www.flmnh.ufl.edu/herbarium/cat/>, and image gallery, <http://www.flmnh.ufl.edu/herbarium/cat/imagesearch.asp>; at Fairchild Tropical Botanic Garden's Virtual Herbarium, www.virtualherbarium.org/vhportal.html, The Robert K. Please note that greater success and accuracy in searching for plant information is likely if you search by scientific name rather than common name. Common names often vary in cultivation and across regions.

Comments: An aggressive invader of wetlands and floodplains. Should be eliminated whenever located.

UNIFIED LAND DEVELOPMENT CODE REVIEW COMMITTEE

Item 3.a.5. Discussion of Questions for the AGO (Committee Member Howard Voren)

The Town has adopted land development regulations pursuant to Chapter 163, Florida Statutes.² The Town's land development regulations contain typical setback requirements for properties in the Town. Subject to consistency with the Right To Farm Act, the Town has sought to enforce setback requirements upon nonresidential farm buildings, such as shade houses, corrals, and barns. However, the change to Section 604.50(1), which exempts nonresidential farm buildings, farm fences and farm signs from "any county or municipal code" would prevent the Town from enforcing its zoning regulations, such as setbacks for non-residential farm buildings, farm fences and farm signs if it is determined that Section 604.50 provides an exemption for nonresidential farm buildings, and farm fences and signs, from the Town's land development regulations.

Legal Analysis

Whether the word "code" in Section 604.50(1) includes land development regulations adopted pursuant to Chapter 163, Florida Statutes, is a matter of statutory interpretation.

When the statute is clear and unambiguous, courts will not look behind the statute's plain language for legislative intent or resort to rules of statutory construction to ascertain intent. *See Lee County Elec. Coop., Inc. v. Jacobs*, 820 So.2d 297, 303 (Fla.2002). In such instance, the statute's plain and ordinary meaning must control, unless this leads to an unreasonable result or a result clearly contrary to legislative intent. *See State v. Burris*, 875 So.2d 408, 410 (Fla.2004). When the statutory language is clear, "courts have no occasion to resort to rules of construction-they must read the statute as written, for to do otherwise would constitute an abrogation of legislative power." *Nicoll v. Baker*, 668 So.2d 989, 990-91 (Fla.1996).

Daniels, 898 So.2d at 64-65. However, if the statutory intent is unclear from the plain language of the statute, then "we apply rules of statutory construction and explore legislative history to determine legislative intent." *BellSouth Telecomms., Inc.*, 863 So.2d at 289.

Koile v. State, 934 So. 2d 1226, 1230-31 (Fla. 2006)

The word "code" is not defined in Chapter 604, or anywhere within the Florida Statutes. Black's Law Dictionary, Seventh Edition, defines the word "code" as "[a] complete system of positive law, carefully arranged and officially promulgated; a systemic collection or revision of laws, rules, or regulations."

The term "land development regulations" is defined in Florida Statutes as:

² The Town has entitled its land development regulations as its "Unified Land Development Code." Nonetheless, they were adopted pursuant to Chapter 163 and serve as the Town's land development regulations.

When appropriate to the context, "development" refers to the act of developing or to the result of development. Reference to any specific operation is not intended to mean that the operation or activity, when part of other operations or activities, is not development. Reference to particular operations is not intended to limit the generality of subsection (1).

Questions for AGO

The regulations in the ULDC are enacted as allowed by Fl chapter 163.

According to Fl Chapter 163, agriculture is exempt from development codes.

Florida 604.50 exempts non residential farm buildings from all codes and fees.

1. For these exemptions to apply to farms, must the property appraiser classify the lands with a particular use code?
2. To be afforded nuisance protection under the Right to Farm Act Statue, 823.14, does the property appraiser need to classify a particular use code and does one need to have implement BMP's?
3. Can all plants and the entire animal kingdom inclusive of insects, fish, reptiles, birds, and all animals useful to humans, regardless of whether they are used for food or adornment, be considered farm products or is there a limited list?

SIGNAGE

CHAPTER A GENERAL

Section 1 General

A. Purpose and Intent

The purpose of this Section is to establish standards for the placement and use of signs and other advertising consistent with State of Florida and Federal law. These standards are designed to protect the health and safety of PBC and to assist in the promotion of tourism, business and industry. More specifically, this Section is intended to:

1. Identification

Promote and aid in the identification, location, and advertisement of goods and services, and the use of signs for free speech;

2. Aesthetics

Preserve the beauty and the unique character of PBC, protect PBC from visual blight, and provide a pleasing environmental setting and community appearance which is deemed vital to the continued economic development of PBC;

3. Land Values

Protect property values by assuring compatibility with surrounding land uses;

4. Safety

Promote general safety and protect the general public from damage or injury caused by, or partially attributed to, the distractions, hazards, and obstructions that result from improperly designed or located signs; and

5. Compatibility

Make signs compatible with the overall design objectives of the Plan and the Managed Growth Tier System (MGTS); ensure signs are compatible with the character of adjacent architecture and neighborhoods, and to provide the essential identity of, and direction to, facilities in the community.

B. General Design Principles

The following principles are general design guidelines that should be considered in the design of all signs. Signs which enhance a project are encouraged, and signs should make a positive contribution to the aesthetic appearance of the street or commercial area where they are located.

1. Visibility

A sign shall be conspicuous and readily distinguished from its surroundings.

2. Legibility

The size and proportion of the elements of the sign's message, including logos, letters, icons and other graphic images, shall be selected based on the average distance and average travel speed of the viewer. Sign messages oriented towards pedestrians may be smaller than those oriented towards automobile drivers. Colors chosen for the sign text and/or graphics shall have sufficient contrast with the sign background in order to be easily read during both day and night hours.

3. Readability

A sign message should be easily recognized and designed in a clear, unambiguous and concise manner, so that a viewer can understand or make sense of what appears on the sign. Excessive use of large areas of several colors can create competition for the eye and significantly reduce readability.

4. Architectural Compatibility

A sign (including its supporting structure, if any) shall be designed as an integral design element of a building's architecture, and shall be architecturally compatible, including color and scale, with any building to which the sign is to be attached and with surrounding structures. A sign which covers a window, or which spills over "natural" boundaries or architectural features and obliterates parts of upper floor of buildings is detrimental to visual order and may not be permitted.

5. Consistency with Area Character

A sign should be consistent with distinct area or district characteristics and incorporate common design elements such as sign materials or themes. In Traditional Development Districts (TDD'S) projecting signs are encouraged and should be located and sized to be viewed by people on foot.

Where signs are located in close proximity with a residential area, the sign should be designed and located so they have little or no impact on adjacent residential neighborhoods.

Figure 8.A.1.B – Visibility and Legibility

C. Applicability

The provisions of this Section shall apply to all signs in unincorporated PBC, unless exempt by [Article 8.B, EXEMPTIONS](#).

1. Nonconforming Signs

Previously permitted signs that do not meet the current standards of this Code are nonconforming structures, subject to [Article 1.F.3, Nonconforming Structure](#). A nonconforming sign may not be enlarged, structurally altered, or moved unless the entire sign is brought into compliance with this Section. A sign face on a nonconforming sign may be replaced but not enlarged.

2. Billboards and Off-Site Signs

There shall continue to be a prohibition on billboards and similar off-site signs, however, this prohibition does not restrict the repair, maintenance, relocation, or replacement of billboards constructed consistent with applicable codes and permit procedures prior to November 15, 1988, and included within the billboard stipulated settlement agreement and billboard survey (approved February 6, 1996). The stipulated settlement agreement referred to herein shall be the primary source of information for implementing the intent and purpose of the regulations governing billboards and similar off-site signs.

3. Conflict with Graphics and Other Provisions

Where there is a conflict between the text and a graphic in this Section, the more restrictive provision shall prevail. Where other sign or outdoor advertising regulations are in effect and are more restrictive than the provisions of this Section, the more restrictive provisions shall prevail.

The initial PMSP shall include the total number of all proposed signs or sign types, the location of sign types on a plan and general building elevations, drawings, sketches of generic sign types, a computation of the total allowable sign area for each sign and sign type (the sign budget), the height of each sign, and the proposed location of each sign on a plan or general building elevations. A PMSP shall also describe proposed public artwork that would be exempt from sign area calculations. Subsequent development orders for Zoning approval or building permits, submitted following the initial approval of a development without a Final Master Sign Plan, shall only be required to submit signage information related to the affected area. **[Ord. 2009-040]**

Section 4 Alternative Sign Plan (ASP)

An applicant may demonstrate the intent of this Section provision can be exceeded, in whole or in part, through an ASP. The ASP shall be prepared in accordance with the design principles set forth below and shall clearly detail the modifications being requested from the provisions of this Section and how they enhance the design principles.

In addition to the requirements of a MSP, an ASP shall be submitted in conjunction with a Zoning application, subject to the following requirements:

1. Submittal Requirements

The ASP shall be submitted with a supplemental application and justification form to include project information, specific code references and proposed alternatives. The ASP shall require approval of the requested deviations from the requirements of this Section by the ZC or BCC and may be subject to conditions of approval.

B. Double-faced Signs

Double-faced signs shall be counted as a single faced sign. Where the faces are not equal in size, the larger sign face shall be used as the bases for calculating sign area.

C. Multi-faced Signs

Signs with three or more sign faces, or signs with two sign faces with a distance greater than three feet apart or an interior angle greater than 45 degrees, shall calculate the sign area as the sum of all the sign faces.

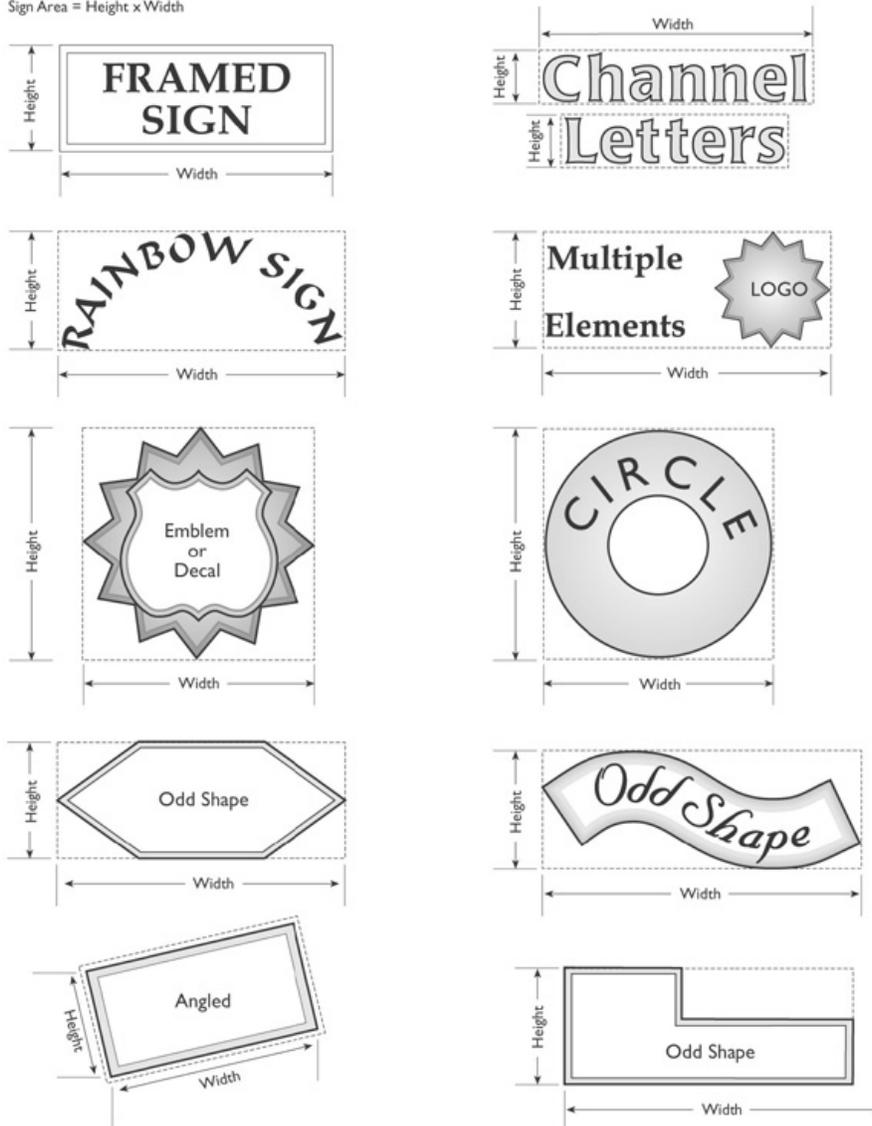

D. Three-dimensional Signs

CHAPTER I ADMINISTRATION AND ENFORCEMENT

Section 1 Zoning Division Review

The Zoning Division shall complete its review of all final approvals required by this Article within 30 days from the date of a fully completed application for a building permit, as determined by the Zoning Division, that has been submitted for Zoning Division review. For the purposes of this Article, final approval shall mean approval from the Zoning Division issued in conjunction with a building permit for the ultimate placement and construction of a sign. The Zoning Division shall either approve or deny the application within this review period. Upon expiration of this review period, the applicant may demand the required approval and proceed with the building permit approval process as though the Zoning Division approval required under this Article has been granted. If a building permit is issued, the applicant may display the sign until the Zoning Division either grants the required approval, or notifies the applicant of a denial of the application and states the reasons for the denial.

Section 2 Enforcement

PBC may enforce the provisions of this Article by all means available to it including but not limited to enforcement proceedings before the PBC Code Enforcement Special Masters pursuant to [Art. 10, ENFORCEMENT](#), imposition of fines under [Art. 10.B.3, Administrative Fines; Costs; Liens](#), and initiation of any civil or administrative proceeding to prevent, restrain or abate any act prohibited by the Article.

Section 3 Persons Responsible for Compliance

Persons who will be charged with violations of this Article are:

- A. The owner, agent, lessee, tenant, contractor, or any other person using the land, building, or premises where such violation has been committed or exists; and
- B. Any person who knowingly commits, takes part or assists in such violation.

Section 4 Removal of Signs in Violation of this Article

Any sign, banner, or sign structure not constructed or located in conformance with this Code is an illegal sign and is subject to the following procedure for notification, removal, and storage:

A. Tagged Notice

If a sign is erected, constructed or located in violation of this Code, PBC shall attach a notice to the sign stating the violation and any corrective measures needed to bring the sign into compliance with this Article. The notice shall further specify that the sign may be removed after ten days have lapsed from the date the tagged notice was placed on the sign, if the specified corrective measures have not been taken.

B. Storage and Removal

If corrective measures have not been complied with after ten days of placement of the tag on the sign, PZB may remove and store the sign in an appropriate storage facility at the expense of the sign owner. The storage period shall be for at least 30 days.

C. Mailed Notice

Upon removal and storage of the sign by PZB, a Notice of Violation and Removal and Storage shall be sent directly to the named owner of the sign, if the owner's address can be readily ascertained from the sign or the address where the sign was located. The notice shall also provide information as to where the sign is stored, how the sign may be reclaimed, and the owner's right to appeal.

D. Return or Destruction

Any sign which has been removed from private property pursuant to the above provisions may be claimed by and returned to the property owner. Release of any sign shall be by written authorization of the Director of Code Enforcement upon proof of ownership and payment of a sum appropriate to compensate PBC for the expense of locating, tagging, mailing notice, removing, and storing the sign. Any sign that remains unclaimed after 30 days from the date of removal shall become the property of PBC and may be disposed of in any manner deemed appropriate by PBC.

E. Destruction and Unpaid Fees

Destruction of the illegal sign shall not extinguish any claim for payment of unpaid fees. Any cost associated with removal of an illegal sign, including cost of collecting unpaid permit, may also be assessed to the sign owner. No new sign permit application will be accepted from the owner of an illegal sign until all fees and costs associated with removal and storage of any illegal sign(s) are paid.

F. Illegal Signs in Public R-O-W

Illegal signs in the public R-O-W may be immediately removed by PBC. Such signs need not be stored and may be immediately disposed of in any manner deemed appropriate by PBC. However, if the approximate value of the sign or other structure is determined to be greater than \$500.00 and the sign bears the name of the owner, the sign owner shall be notified and the sign shall be removed, stored, or returned, as the case may be, in accordance with the procedures in this Section. **[Ord. 2008-003]**

An aggrieved person has the right to immediately appeal a denial of an application for a permit or other approval required by this Article, or any notice of intent to remove or destroy a sign in violation of this Article, to the Circuit Court in the Fifteenth Judicial Circuit of the State of Florida. Any such appeal to the Circuit Court shall be filed within thirty days of the mailing of the written notice of a denial of a permit or other approval contemplated by this article, or within 30 days of the mailing of a notice of violation and removal and storage issued pursuant to this Article.

City of Port St Lucie Business Tax Requirements

Frequently asked questions when starting a business inside the City limits of Port St. Lucie:

Who needs a Tax Certificate and Why?

Any person or business having a location within the city limits of Port St Lucie that engages in any business activity must pay a business tax and obtain a Business Tax Receipt.

Business Tax Receipts expire September 30 and may be renewed on or after July 1 of each year. On October 1, they are delinquent and subject to penalties each month thereafter. New tax receipts are issued at any time during the year and are prorated April 1.

A Business Tax Receipt (formerly called occupational license) is issued by the City of Port St Lucie Business Tax Division for the privilege of engaging in any business, occupation or profession. Anyone providing merchandise or services to the public, even through a one-person company or home-based occupation, must obtain a Business Tax Receipt. A City of Port St Lucie Business Tax Receipt does not replace or eliminate any other city or state requirements for taxes or licenses. Businesses that open for business prior to obtaining a Business Tax Receipt are subject to a 25% penalty on the assessed business tax. This penalty and the penalties for late renewal of the Business Tax Receipt are pursuant to the Florida State Statute 205.053, which states:

1. All business tax receipts shall be renewed by the appropriate taxing agency beginning July 1 of each year, are due and payable on or before September 30 of each year, and expire on September 30 of the succeeding year. If September 30 falls on a weekend or holiday, the tax is due and payable on or before the first working day following September 30. Provisions for partial business tax receipts may be made in the resolution or ordinance authorizing such tax receipts. Business Tax Receipts that are not renewed when due and payable are delinquent and subject to a delinquency penalty of 10 percent for the month of October, plus an additional 5 percent penalty for each subsequent month of delinquency until paid. However, the total delinquency penalty may not exceed 25 percent of the business tax receipt for the delinquent establishment.
2. Any person who engages in any business, occupation, or profession covered by this chapter, who does not pay the required business tax receipt within 150 days after the initial notice of tax due, and who does not obtain the required business tax receipt is subject to civil actions and penalties, including court costs, reasonable attorneys' fees, additional administrative costs incurred as a result of collection efforts, and a penalty of up to \$250.
