TOWN HALL CONFERENCE ROOM  
ULDCADVISORY COMMITTEE AGENDA**

**January 30, 2020 – 4:00 P.M.**

**Jo Siciliano (Seat 1)  
Casey Suchy (Seat 3)  
Marianne Miles (Seat 5)**

**Lisa Trzepacz (Seat 2)  
Karen Plante (Seat 4)**

**Administration**

Town's Planning Consultant, James Fleishmann  
Town Clerk, Lakisha Q. Burch

**Civility:** Being "civil" is not a restraint on the First Amendment right to speak out, but it is more than just being polite. Civility is stating your opinions and beliefs, without degrading someone else in the process. Civility requires a person to respect other people's opinions and beliefs even if he or she strongly disagrees. It is finding a common ground for dialogue with others. It is being patient, graceful, and having a strong character. That's why we say "Character Counts" in Town of Loxahatchee. Civility is practiced at all Town meetings.

**Special Needs:** In accordance with the provisions of the American with Disabilities Act (ADA), persons in need of a special accommodation to participate in this proceeding shall within three business days prior to any proceeding, contact the Town Clerk's Office, 155 F Road, Loxahatchee Groves, Florida, (561) 793-2418.

**CALL TO ORDER**

**ROLLCALL**

**APPROVAL OF MINUTES:** None

**REGULAR AGENDA**

1. Review of ULDC Signs: Review of Agricultural Residential (AR) District sign standards

**COMMENTS FROM THE PUBLIC**

**ADJOURNMENT**

**Comment Cards:** Anyone from the public wishing to address the ULDC Committee, it is requested that you complete a Comment Card before speaking. Please fill out completely with your full name and address so that your comments can be entered correctly in the minutes. During the agenda item portion of the meeting, you may only address the item on the agenda being discussed at the time of your comment. During public comments, you may address any item you desire. Please remember that there is a three (3) minute time limit on all public comment. Persons with disabilities requiring accommodations in order to participate should contact the Town Clerk's Office (561-793-2418), at least 48 hours in advance to request such accommodation.

**Section 90-040. - Standards by sign type and zoning district (Proposed – 1/30/2020**

(A) Per Florida Statutes Chapter 604.50 *Nonresidential farm buildings; farm fences; farm signs*, Section (1), any farm sign, defined in Section 604.50 (1) (c), that is located on lands used for bona fide agriculture purposes is exempt from the Florida Building Code and any county or municipal code or fee, except for code provisions implementing local, state, or federal floodplain management regulations.

(B) Per Florida Statutes Chapter 570.89 *Posting and notification*, Sections (1)(a) and (2), each agritourism operator shall post and maintain a sign that contains the notice, specified therein, of inherent risk.

(A) (C) The following signs are permitted in the Agricultural Residential (AR) zoning district subject to the requirements below. All signs in residentially zoned districts shall not be illuminated unless it is holiday signage.

**(1) ~~Mandatory~~ Optional building identification sign:**

Sign face area	0.5 sq. ft. (min)—2 sq. ft. (max)
Lettering	3 in. (min)—8 in. (max)
Number of signs (maximum)	1 per dwelling unit property
Attached/freestanding or both	Attached or freestanding

**(2) Garage sale sign:**

Sign face area	6 sq. ft. (max)
Number of signs (maximum)	4 per garage sale
Height	6 feet (max)
Other restrictions	Signs shall be removed after sale
Attached/freestanding or both	Freestanding

**(3) Real estate sign:**

Sign face area	6 sq. ft. (max)
Number of signs (maximum)	1 per street frontage
Height	6 feet (max)
Other restrictions	Sign(s) shall be removed after sale
Attached/freestanding or both	Freestanding

**(4) Seasonal or holiday signage:**

Sign face area	Not applicable
Number of signs	1 per street frontage
Other restrictions	Signage shall not be erected more than four weeks before the holiday and shall be removed within two weeks after the holiday
Attached/freestanding or	Both Attached or Freestanding

**(5) Opinion sign:**

Sign face area	6 sq. ft. (max)
Number of signs	1 per street frontage
Height	6 feet (max)
Other restrictions	Sign(s) shall be removed within six weeks after election or final decision on issue (if applicable)
Attached/freestanding or	Freestanding

Chapter 604  
GENERAL AGRICULTURAL  
LAWS

[View Entire Chapter](#)

### 604.50 Nonresidential farm buildings; farm fences; farm signs.—

(1) Notwithstanding any provision of law to the contrary, any nonresidential farm building, farm fence, or farm sign that is located on lands used for bona fide agricultural purposes is exempt from the Florida Building Code and any county or municipal code or fee, except for code provisions implementing local, state, or federal floodplain management regulations. A farm sign located on a public road may not be erected, used, operated, or maintained in a manner that violates any of the standards provided in s. 479.11(4), (5)(a), and (6)-(8).

(2) As used in this section, the term:

(a) “Bona fide agricultural purposes” has the same meaning as provided in s. 193.461(3)(b).

(b) “Farm” has the same meaning as provided in s. 823.14.

(c) “Farm sign” means a sign erected, used, or maintained on a farm by the owner or lessee of the farm which relates solely to farm produce, merchandise, or services sold, produced, manufactured, or furnished on the farm.

(d) “Nonresidential farm building” means any temporary or permanent building or support structure that is classified as a nonresidential farm building on a farm under s. 553.73(10)(c) or that is used primarily for agricultural purposes, is located on land that is an integral part of a farm operation or is classified as agricultural land under s. 193.461, and is not intended to be used as a residential dwelling. The term may include, but is not limited to, a barn, greenhouse, shade house, farm office, storage building, or poultry house.

History.—s. 13, ch. 98-396; s. 19, ch. 2002-293; s. 51, ch. 2002-295; ss. 6, 9, ch. 2011-7; HJR 7103, 2011 Regular Session; s. 75, ch. 2012-5; s. 12, ch. 2012-83; s. 2, ch. 2013-239.

[Title XXXII](#)[Chapter 479](#)[View Entire Chapter](#)

## REGULATION OF PROFESSIONS AND OCCUPATIONS    OUTDOOR ADVERTISING

**479.11 Specified signs prohibited.—No sign shall be erected, used, operated, or maintained:**

(1) Within 660 feet of the nearest edge of the right-of-way of any portion of the interstate highway system or the federal-aid primary highway system, except as provided in ss. [479.111](#) and [479.16](#).

(2) Beyond 660 feet of the nearest edge of the right-of-way of any portion of the interstate highway system or the federal-aid primary highway system outside an urban area, which sign is erected for the purpose of its message being read from the main-traveled way of such system, except as provided in ss. [479.111\(1\)](#) and [479.16](#).

(3) Within 15 feet of the outside boundary of the right-of-way of any highway on the State Highway System outside of an incorporated area or on the interstate or federal-aid primary highway system outside an incorporated area.

(4) Within 100 feet of any church, school, cemetery, public park, public reservation, public playground, or state or national forest, when such facility is located outside of an incorporated area, except as provided in s. [479.16](#).

(5)(a) Which displays intermittent lights not embodied in the sign, or any rotating or flashing light within 100 feet of the outside boundary of the right-of-way of any highway on the State Highway System, interstate highway system, or federal-aid primary highway system or which is illuminated in such a manner so as to cause glare or to impair the vision of motorists or otherwise distract motorists so as to interfere with the motorists' ability to safely operate their vehicles.

(b) If the sign is on the premises of an establishment as provided in s. [479.16\(1\)](#), the local government authority with jurisdiction over the location of the sign shall enforce the provisions of this section as provided in chapter 162 and this section.

(6) Which uses the word "stop" or "danger," or presents or implies the need or requirement of stopping or the existence of danger, or which is a copy or imitation of official signs, and which is adjacent to the right-of-way of any highway on the State Highway System, interstate highway system, or federal-aid primary highway system.

(7) Which is placed on the inside of a curve or in any manner that may prevent persons using the highway from obtaining an unobstructed view of approaching vehicles and which is adjacent to the right-of-way of any highway on the State Highway System, interstate highway system, or federal-aid primary highway system.

(8) Which is located upon the right-of-way of any highway on the State Highway System, interstate highway system, or federal-aid primary highway system.

(9) Which is nailed, fastened, or affixed to any tree or is erected or maintained in an unsafe, insecure, or unsightly condition and which is adjacent to the right-of-way of any highway on the State Highway System outside of an incorporated area or on any portion of the interstate highway system or the federal-aid primary highway system.

(10) Which is on a new highway outside an urban area and otherwise would have been subject to the permit requirements of this chapter.

Title XIV  
TAXATION AND FINANCE

Chapter 193  
ASSESSMENTS

[View Entire Chapter](#)

**193.461 Agricultural lands; classification and assessment; mandated eradication or quarantine program; natural disasters.—**

(1) The property appraiser shall, on an annual basis, classify for assessment purposes all lands within the county as either agricultural or nonagricultural.

(2) Any landowner whose land is denied agricultural classification by the property appraiser may appeal to the value adjustment board. The property appraiser shall notify the landowner in writing of the denial of agricultural classification on or before July 1 of the year for which the application was filed. The notification shall advise the landowner of his or her right to appeal to the value adjustment board and of the filing deadline. The property appraiser shall have available at his or her office a list by ownership of all applications received showing the acreage, the full valuation under s. 193.011, the valuation of the land under the provisions of this section, and whether or not the classification requested was granted.

(3)(a) Lands may not be classified as agricultural lands unless a return is filed on or before March 1 of each year. Before classifying such lands as agricultural lands, the property appraiser may require the taxpayer or the taxpayer’s representative to furnish the property appraiser such information as may reasonably be required to establish that such lands were actually used for a bona fide agricultural purpose. Failure to make timely application by March 1 constitutes a waiver for 1 year of the privilege granted in this section for agricultural assessment. However, an applicant who is qualified to receive an agricultural classification who fails to file an application by March 1 must file an application for the classification with the property appraiser on or before the 25th day after the mailing by the property appraiser of the notice required under s. 194.011(1). Upon receipt of sufficient evidence, as determined by the property appraiser, that demonstrates that the applicant was unable to apply for the classification in a timely manner or that otherwise demonstrates extenuating circumstances that warrant the granting of the classification, the property appraiser may grant the classification. If the applicant files an application for the classification and fails to provide sufficient evidence to the property appraiser as required, the applicant may file, pursuant to s. 194.011(3), a petition with the value adjustment board requesting that the classification be granted. The petition may be filed at any time during the taxable year on or before the 25th day following the mailing of the notice by the property appraiser as provided in s. 194.011(1). Notwithstanding s. 194.013, the applicant must pay a nonrefundable fee of \$15 upon filing the petition. Upon reviewing the petition, if the person is qualified to receive the classification and demonstrates particular extenuating circumstances judged by the value adjustment board to warrant granting the classification, the value adjustment board may grant the classification for the current year. The owner of land that was classified agricultural in the previous year and whose ownership or use has not changed may reapply on a short form as provided by the department. The lessee of property may make original application or reapply using the short form if the lease, or an affidavit executed by the owner, provides that the lessee is empowered to make application for the agricultural classification on behalf of the owner and a copy of the lease or affidavit accompanies the application. A county may, at the request of the property appraiser and by a majority vote of its governing body, waive the requirement that an annual application or statement be made for classification of property within the county after an initial application is made and the classification granted by the property appraiser. Such waiver may be revoked by a majority vote of the governing body of the county.

6

(b) Subject to the restrictions specified in this section, only lands that are used primarily for bona fide agricultural purposes shall be classified agricultural. The term "bona fide agricultural purposes" means good faith commercial agricultural use of the land.

1. In determining whether the use of the land for agricultural purposes is bona fide, the following factors may be taken into consideration:

- a. The length of time the land has been so used.
- b. Whether the use has been continuous.
- c. The purchase price paid.
- d. Size, as it relates to specific agricultural use, but a minimum acreage may not be required for agricultural assessment.
- e. Whether an indicated effort has been made to care sufficiently and adequately for the land in accordance with accepted commercial agricultural practices, including, without limitation, fertilizing, liming, tilling, mowing, reforestation, and other accepted agricultural practices.
- f. Whether the land is under lease and, if so, the effective length, terms, and conditions of the lease.
- g. Such other factors as may become applicable.

2. Offering property for sale does not constitute a primary use of land and may not be the basis for denying an agricultural classification if the land continues to be used primarily for bona fide agricultural purposes while it is being offered for sale.

(c) The maintenance of a dwelling on part of the lands used for agricultural purposes does not in itself preclude an agricultural classification.

(d) When property receiving an agricultural classification contains a residence under the same ownership, the portion of the property consisting of the residence and curtilage must be assessed separately, pursuant to s. 193.011, to qualify for the assessment limitation set forth in s. 193.155. The remaining property may be classified under the provisions of paragraphs (a) and (b).

(e) Notwithstanding the provisions of paragraph (a), land that has received an agricultural classification from the value adjustment board or a court of competent jurisdiction pursuant to this section is entitled to receive such classification in any subsequent year until such agricultural use of the land is abandoned or discontinued, the land is diverted to a nonagricultural use, or the land is reclassified as nonagricultural pursuant to subsection (4). The property appraiser must, no later than January 31 of each year, provide notice to the owner of land that was classified agricultural in the previous year informing the owner of the requirements of this paragraph and requiring the owner to certify that neither the ownership nor the use of the land has changed. The department shall, by administrative rule, prescribe the form of the notice to be used by the property appraiser under this paragraph. If a county has waived the requirement that an annual application or statement be made for classification of property pursuant to paragraph (a), the county may, by a majority vote of its governing body, waive the notice and certification requirements of this paragraph and shall provide the property owner with the same notification provided to owners of land granted an agricultural classification by the property appraiser. Such waiver may be revoked by a majority vote of the county's governing body. This paragraph does not apply to any property if the agricultural classification of that property is the subject of current litigation.

(4) The property appraiser shall reclassify the following lands as nonagricultural:

- (a) Land diverted from an agricultural to a nonagricultural use.
- (b) Land no longer being utilized for agricultural purposes.

(5) For the purpose of this section, the term "agricultural purposes" includes, but is not limited to, horticulture; floriculture; viticulture; forestry; dairy; livestock; poultry; bee; pisciculture, if the land is used principally for the production of tropical fish; aquaculture as defined in s. 597.0015; algaculture; sod farming; and all forms of farm products as defined in s. 823.14(3) and farm production.

(6)(a) In years in which proper application for agricultural assessment has been made and granted pursuant to this section, the assessment of land shall be based solely on its agricultural use. The property appraiser shall consider the following use factors only:

1. The quantity and size of the property;

⑦

2. The condition of the property;
3. The present market value of the property as agricultural land;
4. The income produced by the property;
5. The productivity of land in its present use;
6. The economic merchantability of the agricultural product; and
7. Such other agricultural factors as may from time to time become applicable, which are reflective of the standard present practices of agricultural use and production.

(b) Notwithstanding any provision relating to annual assessment found in s. 192.042, the property appraiser shall rely on 5-year moving average data when utilizing the income methodology approach in an assessment of property used for agricultural purposes.

(c)1. For purposes of the income methodology approach to assessment of property used for agricultural purposes, irrigation systems, including pumps and motors, physically attached to the land shall be considered a part of the average yields per acre and shall have no separately assessable contributory value.

2. Litter containment structures located on producing poultry farms and animal waste nutrient containment structures located on producing dairy farms shall be assessed by the methodology described in subparagraph 1.

3. Structures or improvements used in horticultural production for frost or freeze protection, which are consistent with the interim measures or best management practices adopted by the Department of Agriculture and Consumer Services pursuant to s. 570.93 or s. 403.067(7)(c), shall be assessed by the methodology described in subparagraph 1.

4. Screened enclosed structures used in horticultural production for protection from pests and diseases or to comply with state or federal eradication or compliance agreements shall be assessed by the methodology described in subparagraph 1.

(d) In years in which proper application for agricultural assessment has not been made, the land shall be assessed under the provisions of s. 193.011.

(7)(a) Lands classified for assessment purposes as agricultural lands which are taken out of production by a state or federal eradication or quarantine program, including the Citrus Health Response Program, shall continue to be classified as agricultural lands for 5 years after the date of execution of a compliance agreement between the landowner and the Department of Agriculture and Consumer Services or a federal agency, as applicable, pursuant to such program or successor programs. Lands under these programs which are converted to fallow or otherwise nonincome-producing uses shall continue to be classified as agricultural lands and shall be assessed at a de minimis value of up to \$50 per acre on a single-year assessment methodology while fallow or otherwise used for nonincome-producing purposes. Lands under these programs which are replanted in citrus pursuant to the requirements of the compliance agreement shall continue to be classified as agricultural lands and shall be assessed at a de minimis value of up to \$50 per acre, on a single-year assessment methodology, during the 5-year term of agreement. However, lands converted to other income-producing agricultural uses permissible under such programs shall be assessed pursuant to this section. Land under a mandated eradication or quarantine program which is diverted from an agricultural to a nonagricultural use shall be assessed under s. 193.011.

(b) Lands classified for assessment purposes as agricultural lands that participate in a dispersed water storage program pursuant to a contract with the Department of Environmental Protection or a water management district which requires flooding of land shall continue to be classified as agricultural lands for the duration of the inclusion of the lands in such program or successor programs and shall be assessed as nonproductive agricultural lands. Land that participates in a dispersed water storage program that is diverted from an agricultural to a nonagricultural use shall be assessed under s. 193.011.

(c) Lands classified for assessment purposes as agricultural lands which are not being used for agricultural production as a result of a natural disaster for which a state of emergency is declared pursuant to s. 252.36, when such disaster results in the halting of agricultural production, must continue to be classified as agricultural lands for 5 years after termination of the emergency declaration. However, if such lands are diverted from agricultural use to nonagricultural use during or after the 5-year recovery period, such lands must be assessed under s. 193.011. This paragraph applies retroactively to natural disasters that occurred on or after July 1, 2017. (8)

(8) Lands classified for assessment purposes as agricultural lands, which are not being used for agricultural production due to a hurricane that made landfall in this state during calendar year 2017, must continue to be classified as agricultural lands for assessment purposes through December 31, 2022, unless the lands are converted to a nonagricultural use. Lands converted to nonagricultural use are not covered by this subsection and must be assessed as otherwise provided by law.

## The 2019 Florida Statutes

[Title XLVI](#)  
CRIMES

[Chapter 823](#)  
PUBLIC NUISANCES

[View Entire Chapter](#)

### 823.14 Florida Right to Farm Act.—

(1) SHORT TITLE.—This section shall be known and may be cited as the “Florida Right to Farm Act.”

(2) LEGISLATIVE FINDINGS AND PURPOSE.—The Legislature finds that agricultural production is a major contributor to the economy of the state; that agricultural lands constitute unique and irreplaceable resources of statewide importance; that the continuation of agricultural activities preserves the landscape and environmental resources of the state, contributes to the increase of tourism, and furthers the economic self-sufficiency of the people of the state; and that the encouragement, development, improvement, and preservation of agriculture will result in a general benefit to the health and welfare of the people of the state. The Legislature further finds that agricultural activities conducted on farm land in urbanizing areas are potentially subject to lawsuits based on the theory of nuisance and that these suits encourage and even force the premature removal of the farm land from agricultural use. It is the purpose of this act to protect reasonable agricultural activities conducted on farm land from nuisance suits.

(3) DEFINITIONS.—As used in this section:

(a) “Farm” means the land, buildings, support facilities, machinery, and other appurtenances used in the production of farm or aquaculture products.

(b) “Farm operation” means all conditions or activities by the owner, lessee, agent, independent contractor, and supplier which occur on a farm in connection with the production of farm, honeybee, or apiculture products and includes, but is not limited to, the marketing of produce at roadside stands or farm markets; the operation of machinery and irrigation pumps; the generation of noise, odors, dust, and fumes; ground or aerial seeding and spraying; the placement and operation of an apiary; the application of chemical fertilizers, conditioners, insecticides, pesticides, and herbicides; and the employment and use of labor.

(c) “Farm product” means any plant, as defined in s. 581.011, or animal or insect useful to humans and includes, but is not limited to, any product derived therefrom.

(d) “Established date of operation” means the date the farm operation commenced. If the farm operation is subsequently expanded within the original boundaries of the farm land, the established date of operation of the expansion shall also be considered as the date the original farm operation commenced. If the land boundaries of the farm are subsequently expanded, the established date of operation for each expansion is deemed to be a separate and independent established date of operation. The expanded operation shall not divest the farm operation of a previous established date of operation.

(4) FARM OPERATION NOT TO BE OR BECOME A NUISANCE.—

(a) No farm operation which has been in operation for 1 year or more since its established date of operation and which was not a nuisance at the time of its established date of operation shall be a public or private nuisance if the farm operation conforms to generally accepted agricultural and management practices, except that the following conditions shall constitute evidence of a nuisance:

1. The presence of untreated or improperly treated human waste, garbage, offal, dead animals, dangerous waste materials, or gases which are harmful to human or animal life.
2. The presence of improperly built or improperly maintained septic tanks, water closets, or privies.

10

3. The keeping of diseased animals which are dangerous to human health, unless such animals are kept in accordance with a current state or federal disease control program.

4. The presence of unsanitary places where animals are slaughtered, which may give rise to diseases which are harmful to human or animal life.

(b) No farm operation shall become a public or private nuisance as a result of a change in ownership, a change in the type of farm product being produced, a change in conditions in or around the locality of the farm, or a change brought about to comply with Best Management Practices adopted by local, state, or federal agencies if such farm has been in operation for 1 year or more since its established date of operation and if it was not a nuisance at the time of its established date of operation.

(5) WHEN EXPANSION OF OPERATION NOT PERMITTED.—This act shall not be construed to permit an existing farm operation to change to a more excessive farm operation with regard to noise, odor, dust, or fumes where the existing farm operation is adjacent to an established homestead or business on March 15, 1982.

(6) LIMITATION ON DUPLICATION OF GOVERNMENT REGULATION.—It is the intent of the Legislature to eliminate duplication of regulatory authority over farm operations as expressed in this subsection. Except as otherwise provided for in this section and s. [487.051\(2\)](#), and notwithstanding any other provision of law, a local government may not adopt any ordinance, regulation, rule, or policy to prohibit, restrict, regulate, or otherwise limit an activity of a bona fide farm operation on land classified as agricultural land pursuant to s. [193.461](#), where such activity is regulated through implemented best management practices or interim measures developed by the Department of Environmental Protection, the Department of Agriculture and Consumer Services, or water management districts and adopted under chapter 120 as part of a statewide or regional program. When an activity of a farm operation takes place within a wellfield protection area as defined in any wellfield protection ordinance adopted by a local government, and the adopted best management practice or interim measure does not specifically address wellfield protection, a local government may regulate that activity pursuant to such ordinance. This subsection does not limit the powers and duties provided for in s. [373.4592](#) or limit the powers and duties of any local government to address an emergency as provided for in chapter 252.

History.—s. 1, ch. 79-61; ss. 1, 2, ch. 82-24; s. 9, ch. 87-367; s. 75, ch. 93-206; s. 1279, ch. 97-102; s. 25, ch. 99-391; s. 39, ch. 2000-308; s. 13, ch. 2012-83.

(c) The commission may not approve any proposed amendment that does not accurately and completely address all requirements for amendment which are set forth in this section. The commission shall require all proposed amendments and information submitted with proposed amendments to be reviewed by commission staff prior to consideration by any technical advisory committee. These reviews shall be for sufficiency only and are not intended to be qualitative in nature. Staff members shall reject any proposed amendment that fails to include a fiscal impact statement. Proposed amendments rejected by members of the staff may not be considered by the commission or any technical advisory committee.

(d) Provisions of the Florida Building Code, including those contained in referenced standards and criteria, relating to wind resistance or the prevention of water intrusion may not be amended pursuant to this subsection to diminish those construction requirements; however, the commission may, subject to conditions in this subsection, amend the provisions to enhance those construction requirements. **553.73(10)(c)**

**(10) The following buildings, structures, and facilities are exempt from the Florida Building Code as provided by law, and any further exemptions shall be as determined by the Legislature and provided by law:**

- (a) Buildings and structures specifically regulated and preempted by the Federal Government.
- (b) Railroads and ancillary facilities associated with the railroad.
- (c) Nonresidential farm buildings on farms.**
- (d) Temporary buildings or sheds used exclusively for construction purposes.
- (e) Mobile or modular structures used as temporary offices, except that the provisions of part II relating to accessibility by persons with disabilities apply to such mobile or modular structures.
- (f) Those structures or facilities of electric utilities, as defined in s. 366.02, which are directly involved in the generation, transmission, or distribution of electricity.
- (g) Temporary sets, assemblies, or structures used in commercial motion picture or television production, or any sound-recording equipment used in such production, on or off the premises.
- (h) Storage sheds that are not designed for human habitation and that have a floor area of 720 square feet or less are not required to comply with the mandatory wind-borne-debris-impact standards of the Florida Building Code. In addition, such buildings that are 400 square feet or less and that are intended for use in conjunction with one- and two-family residences are not subject to the door height and width requirements of the Florida Building Code.
- (i) Chickees constructed by the Miccosukee Tribe of Indians of Florida or the Seminole Tribe of Florida. As used in this paragraph, the term "chickee" means an open-sided wooden hut that has a thatched roof of palm or palmetto or other traditional materials, and that does not incorporate any electrical, plumbing, or other nonwood features.
- (j) Family mausoleums not exceeding 250 square feet in area which are prefabricated and assembled on site or preassembled and delivered on site and have walls, roofs, and a floor constructed of granite, marble, or reinforced concrete.
- (k) A building or structure having less than 1,000 square feet which is constructed and owned by a natural person for hunting and which is repaired or reconstructed to the same dimension and condition as existed on January 1, 2011, if the building or structure:
  1. Is not rented or leased or used as a principal residence;
  2. Is not located within the 100-year floodplain according to the Federal Emergency Management Agency's current Flood Insurance Rate Map; and
  3. Is not connected to an offsite electric power or water supply.

With the exception of paragraphs (a), (b), (c), and (f), in order to preserve the health, safety, and welfare of the public, the Florida Building Commission may, by rule adopted pursuant to chapter 120, provide for exceptions to the broad categories of buildings exempted in this section, including exceptions for application of specific sections of the code or standards adopted therein. The Department of Agriculture and Consumer Services shall have exclusive authority to adopt by rule, pursuant to chapter 120, exceptions to nonresidential farm buildings exempted in paragraph (c) when reasonably necessary to preserve public health, safety, and welfare. ### 570.89 Posting and notification.—

(1)(a) Each agritourism operator shall post and maintain signs that contain the notice of inherent risk specified in subsection (2). A sign shall be placed in a clearly visible location at the entrance to the agritourism location and at the site of the agritourism activity. The notice of inherent risk must consist of a sign in black letters, with each letter a minimum of 1 inch in height, with sufficient color contrast to be clearly visible.

(b) Each written contract entered into by an agritourism operator for the provision of professional services, instruction, or the rental of equipment to a participant, regardless of whether the contract involves agritourism activities on or off the location or at the site of the agritourism activity, must contain in clearly readable print the notice of inherent risk specified in subsection (2).

(2) The sign and contract required under subsection (1) must contain the following notice of inherent risk:

#### WARNING

Under Florida law, an agritourism operator is not liable for injury or death of, or damage or loss to, a participant in an agritourism activity conducted at this agritourism location if such injury, death, damage, or loss results from the inherent risks of the agritourism activity. Inherent risks of agritourism activities include, among others, risks of injury inherent to land, equipment, and animals, as well as the potential for you to act in a negligent manner that may contribute to your injury, death, damage, or loss. You are assuming the risk of participating in this agritourism activity.

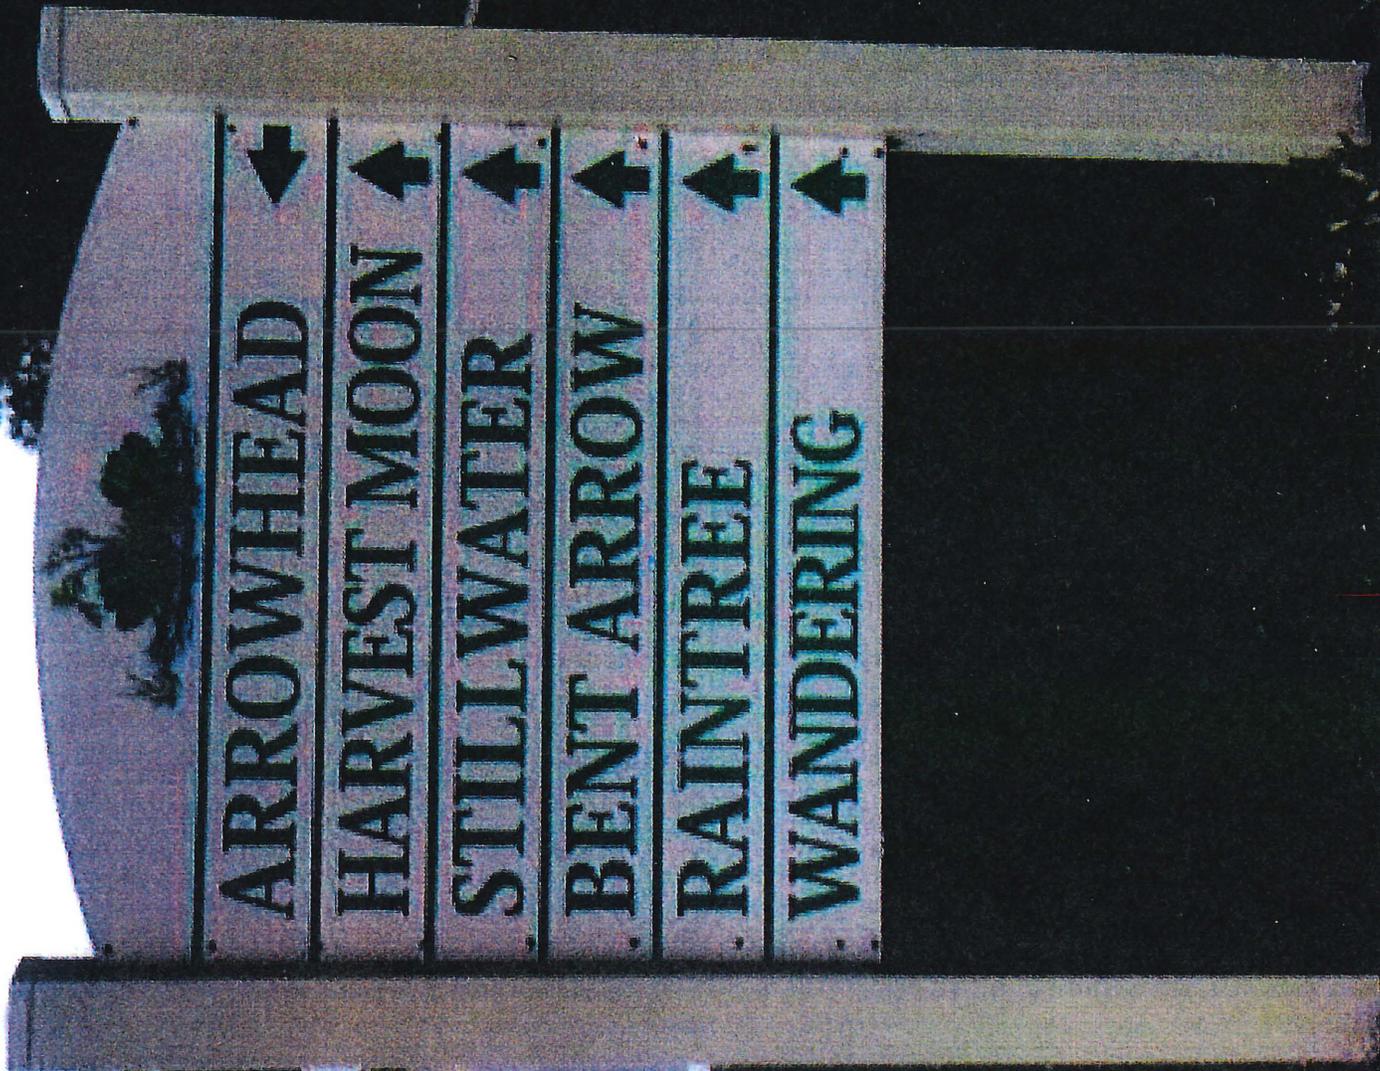

(3) Failure to comply with this section prevents an agritourism operator, his or her employer or employee, or the owner of the underlying land on which the agritourism occurs from invoking the privileges of immunity provided by this section.

History.—s. 4, ch. 2013-179; s. 130, ch. 2014-17; s. 115, ch. 2014-150.

Note.—Former s. 570.964.
